Series Information:

Conducted periodically since 1987, LEMAS collects data from over 3,000 general purpose state and local law enforcement agencies, including all those that employ 100 or more sworn officers and a nationally representative sample of smaller agencies. Data obtained include agency responsibilities, operating expenditures, job functions of sworn and civilian employees, officer salaries and special pay, demographic characteristics of officers, weapons and armor policies, education and training requirements, computers and information systems, use of video technology, vehicles, special units, and community policing activities.

Years Produced: Periodically since 1987

Abstract

The Law Enforcement Management and Administrative Statistics (LEMAS) survey collects data from a nationally representative sample of state and local law enforcement agencies in the United States. Although the data collection instrument (see page 150 of the codebook) uses the year 2012 for the title, most questions have a reference date of January 1, 2013. For this reason, the study title uses the year 2013. The 2013 LEMAS sample design called for the survey questionnaire to be sent to 3,336 general purpose state and local law enforcement agencies including 2,353 local police departments, 933 sheriffs' offices, and the 50 primary state law enforcement agencies. The design called for all agencies employing 100 or more sworn personnel to be included with certainty (self-representing) and for smaller agencies to be sampled from strata base on number of officers employed. A total of 26 local police departments were determined to be out-of-scope for the survey because they were closed, outsourced, or operating on a part-time basis. A total of 38 sheriffs' offices were excluded from the survey because they had no primary law enforcement jurisdiction. The final mailout total of 3,272 agencies included 2,327 local police departments, 895 sheriffs' offices, and the 50 state agencies.

Summary Data Description

Time Period: 2013 - 2013

Country: United States

Geographic Coverage: United States

Geographic Unit: City

Unit of Analysis: Police agencies

Universe: Publicly funded State and local law enforcement agencies in the United States in 2013

Kind of Data: Survey data

Methodology and Processing

Data Collection Methodology

Time Method: Cross-section

Sampling Procedure:

The sampling frame used for the 2013 LEMAS Survey was the 2008 BJS Census of State and Local Law Enforcement Agencies (CSLLEA) (the most recent available). At the time of the 2008 CSLLEA, nearly all of the more than 12,000 police departments were operated at the sub-county level by individual municipal (85%) or township (13%) governments. The remainder were operated by tribal governments, multiple local governments (regional or joint departments), or county governments.

The agency universe represented by the CSLLEA is more inclusive than that of the FBI's Uniform Crime Reporting (UCR) program. Some agencies are excluded from the UCR counts because they do not have an Originating Agency Identifier (ORI) assigned by the FBI. (Some agencies without an ORI are still included in the UCR employee counts (but not in the agency counts) because they report their data to another agency, which reports it to the FBI.)

The CSLLEA data include all officers with full arrest powers regardless of function, while the UCR data exclude officers not paid out of police funds. This exclusion generally pertains to officers working exclusively for jails or courts. The CSLLEA definition excludes many of these officers, but not all of them.

The UCR program defines law enforcement officers as individuals who ordinarily carry a firearm and a badge, have full arrest powers, and are paid from governmental funds set aside specifically for sworn law enforcement representatives. The CSLLEA definition relies exclusively on whether the officer possesses full arrest powers. Regardless of the arrest powers of their officers, agencies included in the CSLLEA that do not have a primary jurisdictional area for which they provide law enforcement services are considered out of scope for the LEMAS Survey because of its policing focus.

- Study 36164 -

In 2008, the CSLLEA counted 765,246 full-time sworn officers, which was about 57,000 (or 8%) more than the 708,569 reported by the UCR. A similar difference was observed for the 2004 and 2000 CSLLEA collections. Although the CSLLEA counts are larger than those of the UCR, the employment growth trends recorded by the CSLLEA over time have been consistent with those recorded by the UCR.

Local police departments and sheriffs' offices are chosen for the LEMAS Survey using a stratified sample design based on number of sworn personnel. The original 2013 LEMAS sample included 3,336 state and local law enforcement agencies. It was designed to be representative of all general purpose state and local law enforcement agencies in the United States, with separate samples drawn of local police departments and sheriffs' offices. All 50 primary state law enforcement agencies (state police and highway patrol) were included. Agencies serving special jurisdictions (such as schools, airports, or parks), or with special enforcement responsibilities (such as conservation laws or alcohol laws), were considered out of scope for the survey.

The 2013 LEMAS sample design called for 2,353 local police departments, divided into 7 strata based on number of sworn officers employed, to receive the survey. During the initial contact phase, it was determined that 26 of these departments had closed since the 2008 CSLLEA and were dropped from the sample. Of the remaining 2,327 departments, the sample design called for all 659 departments employing 100 or more full-time sworn personnel to be self-representing (SR) and receive the survey. It was later determined that 29 of these SR departments did not receive the survey because of inaccurate contact information.

Mode of Data Collection: Multi-modal: website, email, fax

Actions to Minimize Losses:

All departments, regardless of size, were asked to complete the 80-item CJ-44 Survey questionnaire. A majority of the responses were received electronically through a survey website. For the 2,059 departments completing the survey, item nonresponse rates due to omission or invalid data were low for the data elements used in the report.

Weighting:

Because it was determined that 29 of the SR departments did not receive the survey, the base weight for SR departments is 1.046 instead of the expected 1.000. The 6 remaining strata and their corresponding base weights are 50 to 99 officers, 2.572; 25 to 49 officers, 4.225; 10 to 24 officers, 6.260; 5 to 9 officers, 7.288; 2 to 4 officers, 14.611, and 1 officer, 31.302.

Data Appraisal Information

Response Rate:

Of the 3,272 agencies that received the LEMAS survey questionnaire, a total of 2,822 responded for a response rate of 86%. The final database includes responses from 2,059 local police departments, 717 sheriffs' offices, and 46 state law enforcement agencies. The overall response rate for local police departments was 88%; for sheriffs' offices, 80%; and for state law enforcement agencies, 92%.

Estimates of Sampling Error:

The accuracy of the estimates presented in this report depends on two types of error: sampling and nonsampling. Sampling error is the variation that may occur by chance because a sample was used rather than a complete enumeration of the population. Nonsampling error can be attributed to many sources such as the inability to obtain information about all cases in the sample, inability to obtain complete and correct information from the administrative records, and processing errors. In any survey, the full extent of the nonsampling error is never known.

The sampling error, as measured by an estimated standard error, varies by the size of the estimate and the size of the base population. Because the LEMAS data were collected from a sample, the results are subject to sampling error. Variance and standard error estimates for the 2013 LEMAS were generated using the SUDAAN® statistical software package. The Taylor linearization method for a "stratified without replacement" design was used for these calculations.

These standard error estimates may be used to construct confidence intervals around percentages in this report. For example, the 95%-confidence interval around the percentage of local police departments with a mission statement that includes a community policing component is 68% plus or minus 1.96 times 1.5% (or approximately 65% to 71%).

These standard errors may also be used to test the significance of the difference between two sample statistics by pooling the standard errors of the two sample estimates. For example, the standard error of the difference between departments serving fewer than 2,500 residents and those serving 2,500 to 9,999 residents for participation in a drug task force would be 3.9% (or the square root of the sum of the squared standard errors for each group). The 95%-confidence interval around the difference would be 1.96 times 3.9% (or 7.7%).

- Study 36164 -

Since the observed difference of 16% (47% minus 31%) is greater than 7.7%, the difference would be considered statistically significant.

These standard errors may also be used to test the significance of the difference between two sample statistics by pooling the standard errors of the two sample estimates. For example, the standard error of the difference between departments serving fewer than 2,500 residents and those serving 2,500 to 9,999 residents for participation in a drug task force would be 3.9% (or the square root of the sum of the squared standard errors for each group). The 95%-confidence interval around the difference would be 1.96 times 3.9% (or 7.7%). Since the difference of 16% (47% minus 31%) is greater than 7.7%, the difference would be considered statistically significant.

Standard error estimates may also be used to construct confidence intervals around numeric variables such as personnel counts. For example, the 95%-confidence interval around the number of full-time sworn personnel is approximately 477,317 plus or minus 1.96 times 16,470, or 445,036 to 509,958.

Extent of Processing Checks: The data collection was processed according to the standard ICPSR processing procedures. The data were checked for undocumented or inconsistent code values which, when found, were recoded or labeled with the approval of the principal investigator. No consistency checks were performed.

Notes

The 2013 LEMAS instrument contains new items that capture the number of incidents of use of force (H5) and the number of reports of use of force (H6) that were not collected in previous waves. The accuracy of these data are currently unknown and users are recommended to proceed with caution.

Because of an error in the LEMAS instrument, some sheriffs' offices were unable to properly classify their personnel into the sworn and civilian categories. For these agencies, an alternative source may have been used by BJS. The SHERIFF_FLAG variable provides the source of the sworn and civilian personnel totals used in the final data file for all sheriffs' offices.

Users should be aware that there are system missings in the file. No value labels are assigned to these values.

Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.

Instructions

1. Please answer all questions with reference to the law enforcement agency specified on the label above. This survey is directed to a sample of state and local general purpose law enforcement agencies in the United States.
2. Please complete the survey online at <https://secure.urban.org/lemas/> using the Agency Number and Password listed above. If you are unable to use the Internet or prefer to use a different method of completion, contact the Help Line.
3. It may be necessary to gather information from multiple departments within your agency in order to complete this survey. Please review the entire survey and share your Agency Number and Password with the appropriate staff prior to allow them to logon and complete a specific section.
4. When completing the survey online, you are **not required to complete this survey all at once**. The web survey offers several advantages, including: 1) a secure, encrypted system with agency-specific passwords, 2) the ability to save survey responses so you can start and return on several occasions, 3) help flags to request assistance on a particular item, and 4) the option to save and print a copy of your answers once you complete the census.
5. If you are unable to complete an item according to the directions, call the Help Line or make a note in the comments portion (Section J) to explain how you handled the item.
6. Please complete the survey online **by May 31, 2013**.
7. Please print and retain a copy of the completed survey for your records.
8. Data collected through this project will be used for research and statistical purposes only (Title 42 USC 3725 and 3789g) and archived on the Interuniversity Consortium for Political and Social Research (ICPSR) website. Your participation in this data collection is voluntary.
9. If you have questions or concerns, or if you need assistance completing the survey, please contact the Survey Team at the Urban Institute by email at lemas@urban.org or call (toll-free) at (855) 650-6963. Please call between 9:00 a.m. and 5:00 p.m. EST.

Burden Statement

Federal agencies may not conduct or sponsor an information collection, and a person is not required to respond to a collection of information, unless it displays a currently valid OMB Control Number. Public reporting burden for this collection of information is estimated to average 4 hours per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate, or any other aspects of this collection of information, including suggestions for reducing this burden, to the Director, Bureau of Justice Statistics, 810 Seventh Street NW, Washington, DC 20531.

Please do not leave any items blank. All "Yes/No" items require an answer. Blanks will not be accepted as "No" and may trigger a follow-up phone call for clarification. For assistance with any item, see the Help Text in Appendix A for item-specific guidance. A glossary of terms is provided in Appendix B for your reference. Please contact the Help Line if you have any questions or you are unable to complete a question as instructed. Document any instances where you were unable to complete items as requested in the comments portion (Section J).

SECTION J – FEEDBACK & SUBMISSION

Please write any comments you would like to share with the Bureau of Justice Statistics about (a) your survey response, (b) the survey content or format, (c) the manner of administration of the survey, or (d) any other applicable information.

Directions for submission:

1. Please review your answers and make sure that no questions are left blank.
2. Retain a copy of your completed survey.
3. Return your completed survey to the Urban Institute, fax it to (202) 659-8985, or email it to LEMAS@urban.org.
4. If you have any additional questions, you may contact the Help Line (toll-free) at (855) 650-6963 between 9AM and 5PM EST.

Thank you for taking the time to complete this important survey.

APPENDIX A - HELP TEXT

This Help Text provides information to assist in answering items from the 2012 Law Enforcement Management and Administrative Statistics Survey (LEMAS). Please review this Help Text before completing the survey. Refer to the glossary of terms in Appendix B for additional information on definitions of terms used in the survey.

This survey may be completed through a secure website or hard-copy paper version. The web survey offers the following advantages: (a) secure, encrypted system with agency-specific passwords, (b) the ability to save survey responses so you can start and return on several occasions, (c) help flags to request assistance on a particular item, and (d) the option to save and print a copy of your answers once you complete the survey. You may find the web-based survey at <https://secure.urban.org/lemas/>.

In completing the survey, please respond to ALL questions. On “Yes/No” questions, please mark the “No” response if that is the appropriate answer; do NOT only check off the “Yes” boxes and leave the remaining boxes blank. **If you are unable to complete the item as requested, document the instance in the comments portion (Section J).**

If you have additional questions or need to request your agency’s username and password for the online version, please contact the **LEMAS Help Line (toll-free) at 855-650-6963 or lemas@urban.org**.

SECTION A – PERSONNEL

For the following section, please enter the personnel numbers and duties performed for your agency.

A1. Do not include unpaid reserve officers. An employee is full-time if they are expected to work 40 hours per week. Do not include seasonal employees whose positions are regularly added during peak months of the year and dropped after the peak season. Do not leave any categories blank. If none, enter ‘0.’ The total should equal the sum of a. and b. for each column.

A2. An employee is full-time if they are expected to work 40 hours per week. Do not include seasonal or unpaid reserve officers. Enter the number of full-time sworn personnel who identify as two or more races in g. Enter the total number of full-time sworn personnel whose race/ethnicity is not known in h. Do not leave any categories blank. If none, enter ‘0.’ Each full-time sworn personnel should only be counted once. The total should equal the sum of responses a. through h.

A3. Only include full-time sworn personnel in each category if the duty listed is their primary responsibility. Enter the number of full-time sworn personnel whose primary duties are not described at a. through d. in response e. An employee is full-time if they are expected to work 40 hours per week. Do not include seasonal or unpaid reserve officers. If none, enter ‘0.’ Each full-time sworn personnel should only be counted once in responses a. through e.

A4. An employee is full-time if they are expected to work 40 hours per week. If none, enter ‘0.’ Do not include seasonal or unpaid reserve officers. Each full-time sworn personnel should only be counted once. If the position does not exist within your agency, mark the N/A checkbox.

A6. Only include unpaid sworn reserve or auxiliary officers. If none, enter ‘0.’

A7. An employee is full-time if they are expected to work 40 hours per week. If none, enter ‘0.’

A8. Mark the checkbox for “Yes” or “No” for each type of job duty performed. If nonsworn personnel performed any other type(s) of job duties for your agency, please mark “Yes” for “Other” and write in the type(s) of job duties performed. For all responses, please mark the “No” response if this is the appropriate answer; do NOT only check off the “Yes” boxes and leave the remaining boxes blank. If your agency does not employ nonsworn personnel, please select the appropriate checkbox and skip to the next section.

SECTION B – PAY AND BENEFITS

For the following questions, please report the salary ranges, pay, and benefits for your agency.

B1. Enter a number corresponding to the minimum and maximum allowable annual salary in U.S. dollars for each given full-time sworn position. Round to the nearest dollar. If your agency does not use set salary scales, enter in the minimum and maximum salaries for that position or its closest equivalent during 2012. Do not enter dollar signs (\$) or commas. If employees in a particular position are paid a wage rather than a salary, please report the minimum and maximum pay the employees would receive if they worked 40 hours per week for an entire year and received no overtime. If, for a given position, the minimum and maximum salaries are equal, enter the same value in **both** columns. Please mark the “N/A” checkbox if, on January 1, 2013, your agency had no employees occupying the given position and the position was not considered vacant.

B2. Mark the checkbox for “Yes” or “No” for each item for which your agency provided incentives for full-time sworn personnel as of January 1, 2013. Incentives include either increased salary or additional paid leave. If any other skills or factors included incentive pay for full-time sworn personnel, please mark “Yes” for “Other” and write in the type(s). An employee is full-time if they are expected to work 40 hours per week. For all responses, please mark the “No” response if this is the appropriate answer; do NOT only check off the “Yes” boxes and leave the remaining boxes blank.

B3. Mark the checkbox for “Yes” or “No” to indicate whether your agency allowed sworn personnel to work outside of your agency in law enforcement positions, such as off duty positions or extra duty jobs. Include any overtime employment arranged through your agency in your response. If you answer “No,” skip to question B5.

B4. If sworn personnel were permitted to work outside your agency in a law enforcement capacity, select the applicable checkbox(es) to indicate what types of restrictions were placed on these sworn personnel (as described above in Question B3). Check all limitations that apply. If your agency applied additional restrictions to sworn personnel working outside your agency, please mark “Yes” for “Other criteria,” and write in the type(s).

B5. Indicate whether a collective bargaining organization existed as of January 1, 2013 to bargain on behalf of sworn

personnel in your agency. If you answer “No,” skip to Question B7.

B6. Select ONE option that best represented the status of the collective bargaining agreement as of January 1, 2013, as referenced in question B10.

B7. Mark the checkbox for “Yes” or “No” to indicate which costs and expenses your agency reimbursed for full-time sworn personnel as of January 1, 2013. An employee is full-time if they are expected to work 40 hours per week. For all responses, please mark the “No” response if this is the appropriate answer; do NOT only check off the “Yes” boxes and leave the remaining boxes blank.

B8. Mark the checkbox for “Yes” or “No” to indicate whether your agency compensated sworn personnel or nonsworn personnel for overtime work during the 12-month period ending December 31, 2012. If you answer “No” to sworn personnel (Item B8a.), skip to question B10.

B9. Mark the checkbox for “Yes” or “No” for each law enforcement function for which your agency’s sworn personnel were authorized to work overtime. If your agency authorizes overtime for sworn personnel for any additional duties or functions, please mark “Yes” for “Other” and write in the type(s). For all responses, please mark the “No” response if this is the appropriate answer; do NOT only check off the “Yes” boxes and leave the remaining boxes blank.

B10. Mark the checkbox for “Yes” or “No” to indicate whether your agency limited the number of overtime hours that each individual sworn personnel could work during the 12-month period ending December 31, 2012.

B11. Mark the appropriate checkbox that indicates the number of sworn personnel eligible to take home agency-owned vehicles. Eligible personnel are those that qualify for or have the ability to obtain a department vehicle even if they are not currently using this authorization.

SECTION C – HIRES AND SEPARATIONS

For the following questions, please report the numbers of personnel hired by and separated from your agency.

C1. Indicate whether your agency implemented a hiring freeze at any time between January 1, 2010 and December 31, 2012. A hiring freeze is defined as a policy of not hiring new personnel when existing positions are vacated by departing personnel. If you answer “No,” skip to Question C3.

C2. If you indicated in Question C1 that your agency implemented a hiring freeze at some point over the last 36 months, enter the number of months each year from 2010-2012 that the hiring freeze was in effect for sworn employees and nonsworn employees. If the hiring freeze was measured in number of days, round to the closest number of months for each year. If there was no such hiring freeze policy in a given year, enter ‘0.’

C3. Enter the number of full-time and part-time sworn personnel hired by category: direct hires, pre-service hires, and lateral hires. Direct hires are hires with no law enforcement certification or experience. Pre-service hires are hires with certification but no law enforcement experience. Lateral hires are hires with certification and law enforcement experience. An employee is full-time if they are expected to work 40 hours per week. If none, enter ‘0.’ The total number of new hires should

equal the sum all items within the corresponding column. Each new hire can only be counted once.

C4. Mark the checkboxes to indicate what types of additional law enforcement training were or would be required for lateral and pre-service hires. Include in your responses any training that would be required by your agency at the start of the hire’s employment. If other additional law enforcement training requisites exist at your agency for lateral hires, mark the “Lateral” checkbox in Item C5e, and write in the type(s) of training required. If other additional law enforcement training requisites exist at your agency for pre-service hires, mark the “Pre-service” checkbox in Item C5f, and write in the type(s) of training required.

C5. Enter the number of full-time and part-time nonsworn personnel hired during the 12-month period ending December 31, 2012. An employee is full-time if they are expected to work 40 hours per week. Mark the checkbox if no nonsworn personnel were hired during the specified time period.

C6. Select ONE option that best represents your agency’s minimum education requirement for sworn new hires. If the options provided do not accurately describe your agency’s education requirement, select “other requirement” and write in your agency’s minimum education requirement(s).

C7. Indicate whether your agency considers military service as an alternative to its minimum education requirement for sworn personnel. If your agency has no minimum education requirement, as indicated above in Item C6, select “N/A” for not applicable.

C8. Enter the number of employees hired for full-time sworn positions during the specified time period that had completed a Bachelor’s Degree or higher. An employee is full-time if they are expected to work 40 hours per week. If none, enter ‘0.’

C9. Mark the checkbox for “Yes” or “No” to indicate which types of retirement programs were available to all full-time sworn employees hired during the 12-month period ending December 31, 2012. An employee is full-time if they are expected to work 40 hours per week. If your agency offers any other type(s) of retirement programs, write in the type(s) of retirement program in Item C9d.

C10. An employee is full-time if they are expected to work 40 hours per week. Count each separation only once. In Item C10g, enter the total number of sworn personnel separated from your agency, which should be the sum of your agency’s responses to items C10a-C10f. For each item, enter ‘0’ if none.

C11. An employee is full-time if they are expected to work 40 hours per week. In Item C11c, enter the total number of fulltime nonsworn personnel separated from your agency, which should be the sum of items C11a and C11b. For each item, enter ‘0’ if none.

SECTION D – BUDGET AND FISCAL ISSUES

For the following questions, please provide the budgetary information for your agency.

D1. Enter the calendar month in which your agency’s fiscal year begins.

D2. Enter the amount of your agency’s total operating budget for the 12-month period that included January 1, 2013. Round the budget amount to the nearest dollar. Do not include construction costs, major equipment expenditures or other

capital expenditures. If you are only able to obtain the total approved budget amount, please mark the “Check here if the figure above is an estimate” box.

D3. Mark the checkbox for “Yes” or “No” to indicate the sources of funding for the operational expenses of your agency during the 12-month fiscal period that included January 1, 2012. If your agency has other sources of funding not listed in Items D3a-D3g, write in the additional funding source(s) for your agency’s operational expenses. For all responses, please mark the “No” response if this is the appropriate answer; do NOT only check off the “Yes” boxes and leave the remaining boxes blank.

D4. Mark the checkbox for “Yes” or “No” to indicate whether your agency implemented an agency-wide reduction in the base salary for sworn or non-sworn personnel at any time between January 1, 2010 and December 31, 2012. If you answer “No,” skip to Question D6.

D5. Enter the percent change in the base salary for sworn personnel and nonsworn personnel. If no change for either sworn personnel or nonsworn personnel, enter ‘0.’

D6. Mark the checkbox for “Yes” or “No” to indicate whether your agency furloughed any employees at any time since January 1, 2010. Furlough would include a reduction in the number of paid hours or days for employees. Do not include reductions in overtime. If you answer “No,” skip to Question E1.

D7. Enter the number of personnel who were furloughed during at least one pay period in 2010, 2011, and 2012 for both sworn and nonsworn personnel. Do not include reductions in overtime. If no personnel were furloughed in a particular year, enter ‘0.’

SECTION E – COMMUNITY POLICING

For the following questions, please provide community policing information for your agency.

E1. Select ONE of the options to best describe your agency’s written mission statement.

E2. An employee is full-time if they are expected to work 40 hours per week. Check only one response for each part of the question: recruit training and in-service training. If your agency did not offer the specified training as described, mark the checkbox for “Not Applicable.”

E3. Mark the checkbox for “Yes” or “No” to indicate whether your agency actively encouraged patrol officers to engage in SARA-type problem-solving projects. If you answer “No,” skip to Question E5.

E4. Enter the number of patrol officers who engaged in SARA-type problem-solving during the 12-month period ending December 31, 2012. If none, enter ‘0.’

E5. Mark the checkbox for “Yes” or “No” to indicate whether your agency included collaborative problem-solving projects in the evaluation criteria of patrol officers as of January 1, 2013.

E6. Mark the checkbox for “Yes” or “No” to indicate whether your agency had a problem-solving partnership or written agreement with any local civic, business or governmental organizations during the 12-month period ending December 31, 2012. This could include Memoranda of Understanding.

E7. Select whether your agency regularly assigned the same patrol officers’ primary responsibility for a particular area or beat within your agency’s jurisdiction during the 12-month

period ending December 31, 2012. If you answer “No,” skip to Question E9.

E8. Enter the number of patrol officers who were regularly given primary or exclusive responsibility for particular areas or beats. If none, enter ‘0.’

E9. Select whether your agency utilized information from a survey of local residents about crime, fear of crime, or satisfaction with law enforcement, during the 12-month period ending December 31, 2012..

SECTION F – TECHNOLOGY AND INFORMATION SYSTEMS

F1. Mark “Yes” or “No” for each type of technology your agency used to collect information as of January 1, 2013. If your agency utilized any other type(s) of video technology to collect information, mark “Yes” for “Other”. For all responses, please mark the “No” response if this is the appropriate answer; do NOT only check off the “Yes” boxes and leave the remaining boxes blank.

F2. Mark “Yes” or “No” for each type of information to which your agency’s patrol officers had direct electronic access as of January 1, 2013. Computers or smartphones, for example, could be used for electronic access. For all responses, please mark the “No” response if this is the appropriate answer; do NOT only check off the “Yes” boxes and leave the remaining boxes blank.

F3. Mark the applicable checkbox to indicate the primary method for transmitting criminal incident reports from the field to your agency’s central information system as of January 1, 2013. Check only ONE response item. If your agency’s primary method for transmitting criminal incident records is not listed, specify the method.

F4. Mark the checkbox for “Yes” or “No” to indicate whether your agency maintained a computerized records system for criminal incidents as of January 1, 2013. If you answer “No,” skip to Question F10.

F5. Select “Yes” or “No” for each type of computerized records maintained by your agency. If your agency maintained any other type(s) of computerized records, write in the type(s) of computerized records maintained. For all responses, please mark the “No” response if this is the appropriate answer; do NOT only check off the “Yes” boxes and leave the remaining boxes blank.

F6. Select “Yes” or “No” for each type of data that are included in your computerized records of criminal incidents. For all responses, please mark the “No” response if this is the appropriate answer; do NOT only check off the “Yes” boxes and leave the remaining boxes blank.

F7. Select “Yes” or “No” to indicate who conducted research or statistical analyses using your agency’s computerized records of criminal incidents during the 12-month period ending December 31, 2012. If no analyses were conducted, mark the checkbox and skip to Question F10.

F8. If you answered “Yes” to F7a, enter the number of personnel who conducted research or statistical analyses using your agency’s computerized records of criminal incidents during the 12-month period ending December 31, 2012. Use the response Items at F8a through F8d to indicate how many full-time sworn personnel, part-time sworn personnel, full-time nonsworn personnel, and part-time nonsworn personnel conducted research and analyses. An employee is full-time if they are expected to work 40 hours per week. If none, enter ‘0.’

F9. If you answered “Yes” to F7b, mark the applicable checkbox(es) to indicate what types of outside organizations or individuals conducted research or statistical analysis of your agency’s computerized records of criminal incidents. Mark the checkbox for all types that apply. If other types of outside organizations or individuals conducted research or statistical analysis of your agency’s computerized records of criminal incidents, write in the type(s) of sources provided research or statistical analysis.

F10. Select “Yes” or “No” for each type of crime-related information your agency provided to the public on its website as of January 1, 2013. If your agency does not have a website, mark the checkbox for “Agency has no website” that precedes the response items, and skip to Question F12. If your agency provided any other type(s) of crime-related information to the public on your agency’s website, write in the type(s) of crime-related information provided. If your agency does not record use of force, mark the appropriate checkbox. If your agency follows any other method for recording use of force, write in the method used.

H5. If you answered “Yes” to Question H4a, enter the total number of use of force incidents recorded by your agency during the 12-month period ending December 31, 2012. If none, enter ‘0.’ If you are only able to obtain an estimated number, please mark the estimate box. If the number of use of force incidents is not known, please mark the appropriate box.

H6. If you answered “Yes” to Question H4b, enter the total number of separate reports from individual officers or deputies recorded by your agency during the 12-month period ending December 31, 2012. If none, enter ‘0.’ If you are only able to obtain an estimated number, please mark the estimate box. If the number of reports recorded is not known, please mark the appropriate box.

SECTION J – FEEDBACK & SUBMISSION

Please write any comments you would like to share about your responses, the content/format, survey administration, or any other information in the space provided. For example, if you had questions concerning one or more of the questions or needed to respond in a different format than what was included on the survey, please provide information here to explain the circumstances.

Directions for submission:

1. Please review your answers and make sure that no questions are left blank.
2. Retain a copy of your completed survey.
3. Return your completed survey to the Urban Institute, fax it to (202) 659-8985, or email it to LEMAS@urban.org.
4. If you have any additional questions, you may contact the Help Line (toll-free) at (855) 650-6963 between 9AM and 5PM EST.

Thank you for taking the time to complete this important survey.

SECTION I – ORGANIZATIONAL RESPONSES TO ISSUES / PROBLEMS

I1. Check only ONE of the following options for EACH issue, problem, or task: 1) Specialized Unit; 2) Dedicated Personnel; 3) No Dedicated Personnel; or 4) Issue not formally addressed. For issues, problems, or tasks addressed by a specialized unit, check whether the unit has any personnel assigned full-time, part-time, or both. To indicate both full-time and part-time staff assigned to a specialized unit, check both the “Personnel Assigned Full-time” and “Personnel Assigned Part-time” boxes under Specialized Unit for the issue, problem, or task in question. An employee is full-time if they are expected to work 40 hours per week. Mark the checkbox for “Dedicated Personnel” if at least one person was assigned to the issue, problem, or task on at least a part-time basis but your agency has no specialized unit. Mark the checkbox for “No Dedicated Personnel” if your agency has specialized policies, procedures, or training but no dedicated personnel or specialized unit.

I2. Enter the number of total specialized units your agency had as of January 1, 2013 that addressed the issues, problems, or tasks included in Question I1. For example, your agency may have only two or three units that cover all the issues listed above rather than having a separate specialized unit for each. Please list how many separate units cover the issues addressed. If none, enter ‘0.’

I3. Select “Yes” or “No” to indicate whether your agency participated in any multijurisdictional task forces in the 12-month period ending December 31, 2012. Include only ongoing efforts. Do not include ad hoc or single event collaborations. If you answer “No,” skip to Section J.

I4. If you answered “yes” to Question I3, indicate which issues were addressed by the multijurisdictional task forces referenced in Question I3. If your agency’s multijurisdictional task forces addressed other issues, write in the issues. For all items, please mark a response; do NOT only check off the “Yes” boxes and leave the remaining boxes blank.
